Mr. Ty Melton
Melton Design Build
3082 Sterling Circle
Boulder, CO 80301

Dear Ty,

We just recently completed a remodel project with your company in our home at 6972 Roaring Fork Trail in Boulder and want to express to you what a great job your entire team did for us. We have told our friends that it would be hard to imagine how a project like this could have gone smoother and how very pleased we are with the end result.

From the beginning, working with Clay Dusel and your design group to come up with a plan we knew we were in good hands. The various iterations they went through with us were very helpful in honing in on the final vision.

Once the project began, your team was just incredible in terms of their competence, ease to work with, communication, reliability and most importantly the obvious pride they took in their work. We found the same to be true with the subs you hired for our job. The people at Heat Wave Stove and Spa; Heritage Tile Marble & Granite; Steel's Harwood Floors; Beckham Roof Services, as well as the electrical contractor, were all great to work with, were attentive to detail and clearly made every effort to provide the highest quality of product.

We especially want to highlight three of your people who were just incredible. Bethany Abramson was very patient and helpful with many of the details of our design. Her suggestions on granite and tile for the fireplace and the overall design resulted in a signature focal point in our living room. Her assistance in selecting paint and other small design ideas were invaluable. And she was just a delight to work with – caring and professional.

Shawn Kenne was the project manager assigned for our project and he was simply awesome. He was engaged with the Melton team and the subs, was a wonderful communicator who constantly kept us informed or asked our opinions and would readily meet with us whenever we needed. It was quite obvious to us that he was highly regarded and respected by everyone on the project. We know that any project with so many moving parts can have its stressful times, but Shawn always projected a calm demeanor and is a terrific professional.

Finally we want to commend Chris Prince. Chris was at our house almost every day overseeing the work until the final finish stages. We miss seeing him. We were able to spend a great deal of time observing and interacting with Chris and the various crews. The manner in which Chris related to and supervised other Melton people and the subs was outstanding. The roofing contractor told David at the end of his first day that Chris

was the best he had seen. It was obvious that Chris was highly respected by everyone he dealt with. We found his insights and ideas as the project progressed to be invaluable. As a result of his attention to detail, can do attitude and the total pride and commitment he took doing a job that met our expectations we felt extremely comfortable and confident knowing that Chris was on our project. He is truly and outstanding young man.

We both spent our careers in professionals services firms as accountants, David as regional managing partner of a national CPA firm. We can tell you that Chris and Shawn and Bethany are the kind of employees that you wish all your employees were like and make your organization stand out.

Thank you again for a job very well done. Please feel free to use us as a reference should you desire. We will certainly use Melton for any future home remodel projects.

Sincerely,

A handwritten signature in blue ink, appearing to read "David and Laure Laundy". The signature is fluid and cursive, with the first name "David" being larger and more prominent than the second name "Laure".
